

Anshul Kumar

AI Engineer | GenAI & Backend Development | Data Science

rahulgagan26@gmail.com | [linkedin.com/in/anshul-k-265b581b6](https://www.linkedin.com/in/anshul-k-265b581b6) | +91 79828 19241 | github.com/anshul-17

PROFESSIONAL SUMMARY

Computer Science Engineering graduate with hands-on experience designing and deploying production-ready **GenAI** pipelines, backend architectures, and **Natural Language Processing (NLP)** solutions. Demonstrated success in building scalable **RAG** systems, deploying high-accuracy transcription engines using **Flask** and **Hugging Face**, and **engineering automation** frameworks that reduce data preprocessing times by 60%. Highly proficient in full-lifecycle **Python** development, **RESTful APIs**, and **relational databases**.

TECHNICAL SKILLS

- **Core Engineering** : Python, Core Java, SQL, Data Structures & Algorithms (DSA), OOP, SDLC, Git.
- **Generative AI (GenAI) & NLP** : Large Language Models (LLMs), LangChain, ChromaDB, Vector Embedding, Retrieval-Augmented Generation (RAG).
- **Machine Learning & Data Science**: Scikit-learn, Model Evaluation, Predictive Modeling, Exploratory Data Analysis (EDA), Pandas, NumPy.
- **Web frameworks & Tools**: Flask, Streamlit Cloud, RESTful APIs, Git/GitHub, Power BI, VS Code.

WORK EXPERIENCE

AI Generalist Intern - Eoxs (Remote)

Jul 2025 - Aug 2025

- Built an end-to-end transcription system using Python and NLP for production-ready text analysis.
- Enhanced model performance through rigorous data cleaning and automated preprocessing workflows.

Machine Learning Intern (Python & ML) - Tech Explica

Jan 2019 - May 2019

- Developed and tuned Scikit-learn models, improving accuracy through advanced parameter optimization.
- Executed feature engineering and model validation on structured datasets during industrial training.

PROJECTS

AI Portfolio Assistant (RAG)

Live App — github.com/anshul-17/PortfolioBot

- Built an end-to-end **RAG** pipeline using LangChain and **ChromaDB** to chunk, embed, and index unstructured PDF data.
- **Integrated Gemini API** to process natural language queries regarding skills and project experience with high context accuracy.
- Deployed a live interactive UI via **Streamlit Cloud** using secure environment secret management for API access keys.

AI Transcripator (Flask, NLP, Python)

github.com/anshul-17/transcripator

- Developed a **RESTful API** with **Flask** and **Hugging Face** to achieve 95% text analysis accuracy.
- Optimized **data pipelines** for real-time audio-to-text processing and model inference.

AutoEDA (Python, Pandas, Numpy)

github.com/anshul-17/EDA-Automation

- Built an automated **EDA** framework using **Pandas** and **NumPy** that reduced preprocessing time by 60%.
- Designed modular scripts for automated feature engineering and data validation across diverse datasets.

Movie Recommendation System (Python, Scikit-learn, Streamlit)

github.com/anshul-17/movie-recommend-system

- Implemented a content-based engine using Cosine Similarity and Scikit-learn on TMDb datasets.
- Deployed an interactive interface using Streamlit to visualize personalized recommendations.

EDUCATION

B.Tech – Computer Science & Engineering

2021 – 2024

Krishna Engineering College, Ghaziabad

Result declared: 2025 (AKTU)

Diploma (Polytechnic) – ITES&M

2016 – 2020

Aditya Institute of Technology, Delhi (B.Tech admission delayed to 2021 due to COVID-19)

CERTIFICATIONS

- Data Visualization: Empowering Business with Effective Insights — TCS ([Link](#))
- Python Programming Fundamentals — Microsoft (Coursera) ([Link](#))
- Data Science & Analytics — HP LIFE ([Link](#))
- Exploratory Data Analysis for Machine Learning — IBM (Coursera) ([Link](#))
- Supervised Machine Learning: Classification & Regression — IBM (Coursera) ([Link](#))
